T2 **16** 1080p
IP65

Technical Datasheet

In-wall TV - suitable for bathroom

B&W sound option*

Fanless. Very simple installation process.
Suitable for on wall installation.

300 cd/m2 to 1500 cd/m2
Frequency 60Hz
High Quality 24/7
Power 15w

April 2018

List of Standard Models

CONTENTS

Television set	1
Steel frame for in-wall installation	1
Waterproof remote control (LT30)	1
2 water resistant in-wall speakers	1
5 meters audio cable	1
Composite audio/video jack cable	1
YUV jack cable	1
12V adaptor with 4 meters cable	1

INCLUDED FUNCTIONS

RS232 control / IP control (option)

- Control of the main television's functions
- Volume control by direct value
- Backlight control (on or off)
- Blocking function of the remote control
- Reading of the functions status of the TV

Infra-Red relay 38 KHz

- Control of devices deported through the TV
- Can be connected to a flasher at the rear of the TV

Distinct ON/OFF signals (IR)

- 2 distinct signals to switch on and switch off the TV
(Hidden command on LM27)

DISPLAY

Screen size	15,6" (40 cm)
Display area (H/V) (mm)	342 x 191
Aspect ratio	16:9
Resolution (pixels)	1366 x 768

SPECIFICATIONS

Glass width (mm)	450
Glass height (mm)	300
Total depth (mm)	62.2
Weight with back box	7 kg
Power supply	DC 12V

PACKING

Parcel	1
Length (mm)	800
Width (mm)	400
Height (mm)	520
Weight	12 kg

DC 12V POWER SUPPLY:

Length (mm)	105
Width (mm)	40
Height (mm)	30

Installation Instructions

To install a television screen, you must first position the back box on the wall and mount it with the assembly kit provided.

The back box can be mounted with 2 solutions :

- using the lugs positioned of both sides on the box
- using the four holes at the bottom of the box

Once the wall back box is correctly installed, the whole screen sits on the box and is held in place by a magnetic system.

To obtain an IP65 protection rating for the front side, apply a silicon seal around the screen, thus ensuring the wall is also correctly protected.

* For Super Clear and Premium glass finishes add 3mm

All dimensions have a tolerance of +/- 1mm
